Dear Mr. Weisberg,

I recently read your book "Case Closed". BRAVO! Gerald Posner is a moron and I am glad you exposed his nonsensical book. I could not even stand to look at him when he was making the talk show circuit, spouting off these bacon brained ideas which absolutely no one with even a modicum of sense would buy. It's said that those who do not know the truth would read his book first.

I have been studying the assassination for 15 years or so. I saw a BBC production called "The men who Killed Kennedy". Alot of material was wrong, but alot was correct, too. The enhanced moorman photograph showing a uniformed figure behind the fence on the grassy knoll blew me away. (Roscoe White, who was the dallas cop who confessed on his deathbed as being behind the fence had no knowledge of what that photo showed!

I believe it was Tippet + White who pulled up in front of Oswalds rooming house and beeped twice. I believe the folded uniform (police) inside Tippets patrol car was Roscoe White's, & I think it was Roscoe White who shot Tippet. He fits the description of eyewitnesses, and he had the motive.

I wish I could talk with you (over)

for hours. I bet I'd have to stand in line!

I am a dental assistant here in Orlando and my husband and I have 2 dogs + 1 cat. I am just an ordinary person, vintage middle america.

I wish so badly the truth could be made known. Why are the media so brain-dead?
